Boost Business of  
Medical Tourism

## TOPIC 02

Focus on Bringing  
Public and Private  
Sector Together

## TOPIC 03

Medical Equipment  
Manufacturing and  
availability

## WE OFFER

Helping Brother Medical Tourism India is going to organize a **Conference on Health Care & Medical Tourism** in **Bangladesh** with the help of Govt. of India and Bangladesh. With the focus on business of Medical tourism and to give best and affordable treatment to patients and to bring Public and Private sector on one platform.

The practice of medical tourism depends on successfully informing potential patients about procedure options, treatment facilities, tourism opportunities, travel arrangements, and destination countries. And we are working to get them together in the just right time.

This event connect not only the medical industries between India and Bangladesh but it also help both the country to improve there relationship.

- An opportunity to boost business
- Focus on Bringing Public and Private Sector together
- Medical Equipment manufacturing and Availability
- Doctor Summit

“Time and Health are two precious assets that we don’t recongnize and appriciate untill they have been depleted”

-Denis Waitley

Lets Be the Part of this Conference and Join hand together to give Both the Nations a Healthy Life
